Development Authority of Richmond County

Augusta Technical College

Mission

The mission of Augusta Technical College is to promote the educational, economic, and community development of the Central Savannah River Area.

Goals

- To provide competency-based associate degree, diploma, and technical certificate of credit programs to prepare students for employment.
- To provide adult basic education services and developmental courses to prepare students for access to postsecondary education.
- To provide opportunities for lifelong learning through credit and non-credit courses, workshops, and seminars.
- To contribute to the development of business and industry and the community through customized education, job training, and retraining.
- To provide a seamless education system by collaborating with area secondary and postsecondary institutions.
- To provide support services and activities to enable students to develop and achieve educational, personal, and career goals.
- To provide opportunities that allow employees to remain current in their respective positions.
- To provide a planning and management system for the allocation of resources to enhance personnel, programs, facilities, technology, and equipment.
- To provide a positive image through marketing and public relations activities.
- To provide an institutional development program to enhance the college mission.
- To provide research and assessment to enhance planning and decision-making.

Augusta Technical College – Business and Industry Services

Center for Advanced Technology (CADTEC)

The Center for Advanced Technology (CADTEC) of Augusta Technical College was established to help CSRA manufacturers compete in the world market through technology transfer. The Center for Advanced Technology's mission is to increase the economic competitiveness of our local business and industry through applied technology transfer, employee assessment, training and general services that will provide opportunities for both personal and professional growth.
